

GISELE LIMA

JUNIOR WEB DEVELOPER

SUMMARY

I am a Junior Web Developer with plenty of enthusiasm to start applying my full-stack technical knowledge into creative solutions that can help customers to thrive.

My background includes 13 years of experience working as Production Engineer and Leader of Continuous Improvement Projects.

KEY PROJECTS

VEGME APP

<https://vegme-app.herokuapp.com/>

- Two-sided marketplace application utilising user authentication and authorisation
- Users are customers looking for delivery of vegan meals and restaurants offering their meal options to that niche market
- Features: CRUD functionalities, image handling via CDN, shopping cart and payment gateway
- Built with Ruby on Rails, PostgreSQL and Cloudinary

ALTERNATIVE PAYROLL APP

<https://github.com/limagisele/terminal-app.git>

- Ruby terminal app created from the need to implement a backup software where employees can enter their timesheets and managers can generate payroll reports while main system is down
- Features: users sign-in, timecard management through CRUD actions, report generated as csv file
- Developed using TDD cycle

PORTFOLIO WEBSITE

<https://giselelima.netlify.app/>

- Static website built to apply HTML and CSS knowledge while creating a portfolio to display projects developed during bootcamp
- Key focus was to implement a responsive and mobile-first design with Flexbox

- **Deployment:** Heroku, Netlify
- **Unit Testing:** Jest, RSpec

GISELE LIMA

JUNIOR WEB DEVELOPER

PREVIOUS EMPLOYMENT

PRODCUTION MANAGER

Coca-Cola Europacific Partners

2021 - 2022

- Managed team of 3 team managers, 1 scheduler and 23 operators
- Visited critical customer's warehouse to analyse recurrent packaging complaints, then implemented improvement plan which reduced this type of complaint to zero and increased customer's satisfaction
- Improved department's Quality KPIs by 25%, through development of team's ownership and commitment with the quality standards of their lines

LINE MANAGER

Nestle

2016 - 2021

- Identified business improvement opportunities to achieve Business Plan targets and presented them to key stakeholders for approval prior to implementation
- Led improvement project consulting user's needs and feedbacks, that resulted in 38% increase of production line's output and saving of \$113k/year in material cost
- Developed and implemented training plan to transfer tech skills from one site to another, allowing site to meet the deadlines of shutting down original site and starting up the new one on-time

CONTINUOUS IMPROVEMENT COORDINATOR

Brose Group (Fiat-Chrysler Jeep Automobiles Supplier Park)

2015 - 2015

- Drove the internal cultural change while adapting Brose's system to Fiat's (client) requirements
- Implemented Management System for a brand-new site, which was classified by client's ranking as benchmarking for other suppliers

CERTIFICATION

JAVASCRIPT DEVELOPMENT

General Assembly

(In Progress)

LEAN SIX SIGMA GREEN BELT

Melbourne University

2019

VOLUNTEERING

VOLUNTEER TUTOR

Melbourne AMEP

May 2021 - Current

- Support recent migrants to settle in Australia
- Practice job interviews with students preparing for employment
